Bill and Mary:

Please see the bulleted list below for the major actions and accomplishments associated with Cooperative Agreement Number W912HZ-14-2-0002 for the month of February 2015. Please let me know if you would like me to elaborate on the details of any items I've listed below, or if there are any status updates you'd like on unlisted topics.

Best Regards,

Jamie

### Marsh Vegetation

- The next synoptic sample of marsh vegetation will be in June 2015.

### Water Data

- Data were last downloaded on February 23<sup>rd</sup> - 25<sup>th</sup>.

### Forest monitoring

- Monthly dendrometer band (growth) measurements began in February.
  - A few trees have shown minimal (< 1 mm) growth (expansion), but not many.
- We installed a couple "bridges" to help us get to the forest inventory plots. These are simply boards that span really soupy areas, held in place by pvc poles that let the boards float during flood tides.

### Miscellaneous

- The 2014 annual report is very nearly finished. You should get the final version within a week.
